TYPE: STANDALONE NOVEL | WORD COUNT: 107,000 WORDS | SETTING: KYŌTO, C.1600, JAPAN

LOGLINE

A subversive historical fantasy where a wayward fox-spirit invents the provocative, gender-bending art of Kabuki, setting her on a collision course with the nascent Tokugawa Shogunate.

OVERVIEW & PITCH

Set against the closing years of the Sengoku period, the brutal unification of Japan, and the dawn of the oppressive Tokugawa Shogunate, THE KABUKI BOOK weaves narratives of art, craftsmanship, and mythology. Written with a fierce, unapologetic voice, it operates on two interlaced epic scales—a gritty historical drama of artistic rebellion and a sprawling divine war between gods of Earth and Sea.
